01 · LOGO

The logo

The MyPro Market logo pairs a house mark with a checkmark: a job done right by a vetted pro. It shares its structure with the MyPro Products logo, with Market Green as its accent. The wordmark is set in Inter ExtraBold, with "Pro" in Market Green. Always use the supplied artwork; never retype or redraw the logo.

Primary: horizontal. Use this version first, wherever it fits.

Stacked. For square or tall spaces.

Mark. App icons, avatars, favicons.

Reversed for dark backgrounds.

White for blue or photo backgrounds.

Black for one-color print, fax and stamps.

Clear space and minimum size

Keep an empty margin around the logo at least the height of the house mark's window (**X**). Nothing (text, edges, other logos) should enter that space.

Minimum size

Horizontal logo: 1.25 in / 140 px wide

Stacked logo: 0.9 in / 100 px wide

Mark alone: 0.25 in / 24 px wide

File formats

SVG: web and anything that scales

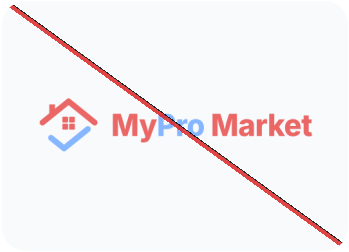

PNG: documents, slides, social posts

ICO / small PNG: browser favicons
